Message from the CHAIRMAN

Ilex Public School, Barhi has fulfilled its commitment by empowering every child who has entered its portals with courage of conviction and strength of character to tide over the trials and tribulations of life. It is also a matter of great joy for me to see that at the same time the school is keeping pace with the rest of world. Our students have been taught to strike the right balance between tradition and modernization.

Ilex Public School, Barhi will continue to

impart knowledge with virtue and moral excellence, therefore, instilling in each of its students the values of life. If we succeed in inculcating in them the internal values of trust, honesty, service before self, our mission will be fulfilled.

In the last 26 years school has shown tremendous progress. I dedicate this success to the hardwork and undying support of our staff and students.

I congratulate Mr. Shailesh Kumar (Principal) and staff for their single minded dedication to help the students traverse the greater heights of academic excellence and holistic growth. Last but not the least I wish the staff and the students success in all their future endeavours.

Sri. Basant Prasad (Chairman)

From the desk of MANAGER

Smt. Sushama Bharti

From nature springs curiosity, curiosity causes exploration, and from exploration comes knowledge. Knowledge is the seed for creation and creation is the aspiration of all human endeavours. Knowledge never dies and nor can it be deformed. It is immortal and its quest is the true path for salvation.

The PRINCIPAL speaks

The Student of IPS are taught to always "Look up", i.e. to look up to God for help, strength and reassurance in toils, trails, temptation and troubles. "Lift up" means that every ILEXIAN, be it students or teachers, have to set for themselves high standards, goals and aspirations in every sphere of life.

The School is a place where children are encouraged to say "I see it, I get it, I can do it."

Our philosophy of education has always been meeting the needs of the individual child. Children acquire skills and knowledge easily if we can make the surrounding stimulating and purposeful. In the 21st century, the Digital Revolution affects us all. Quite simply, it is changing everything: a brilliant barrage of information, entertainment, companionship and education is speedily available. In such a surrounding when work and effort is valued, the child's self-esteem is heightened, and from this results self-motivation. We try to understand and work with each child, and we firmly believe that it is our responsibility to enable the child in our care to develop as a whole.

In this era of cut throat competition, it is of paramount importance to impart an integrated education to the future citizens of the Nation for successfully facing multitasking. The Ilex Public School, therefore, lay special emphasis on both co-curricular and extra-curricular activities providing students an edge over others to be a leader in their respective field of activity. The wheel would also be a true reflection of all these diverse achievements and progresses made and being made by the school in fulfilling the coveted goal of imparting disciplined and quality education.

Our goal at IPS, BARHI is to provide an enriching, engaging, and challenging curriculum that will prepare students for success while at IPS, BARHI and for the years that follow. We believe that students, parents and teachers all play a vital role in helping students reach their greatest potential. Parents are encouraged to check their progress regularly on our parent portal, which can be accessed via our school website. Students are encouraged to take advantage of the many resources available to them- their teachers, the library, the computer labs, and the smart classes.

To channelize the creative aspect of the child the school has come up with the school magazine. This is not just a means for a school to communicate its thought but it also highlights the success and achievement of its pursuits. It gives an insight to ones thought and creativity through varied expressions. Our children have been able to leave their imprint in the path they have walked till now and the school has carved a niche of its own in the educational hub.

The school where the quality matters the most we have tried to reflect the kaleidoscope of learning, adventures, creativities and positive approach of our young minds through writing and drawings. I hope this effort of our minds will serve as a stepping stone towards the many miles stones we have to cover in pursuit of excellence.

Mr. Shailesh Kumar M.Sc, B.Ed

Knowledge makes you humble, humility gives you character, good character attracts wealth, wealth can be used for doing good deeds. This in turn leads to happiness in the world.

Our Vision

At **Ilex Public School**, we recognize the imperative of imparting an educational experience that is world-class in every respect and which prepares children for global citizenship. We are a school with an Indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of values. We believe that a curriculum of excellence with a global dimension is central to the education of children to face the challenges of the 21st century with confidence and strength of character.

The School's mission is to provide a learning environment that encourages children to bring out the best in themselves and enables their all-round development through the joy of learning, enduring values and the celebration of diversity.

The ILEX Curriculum Model

The ILEX Curriculum Model represents the School's commitment to optimise teaching and learning, and facilitate children's holistic development and well-being. Through a curriculum that is stimulating and creative, and an environment that is safe and child-centred, we enable the learner to explore multiple dimensions of excellence, encompassing intellectual, social, emotional and physical development. There is equal emphasis on academic rigour and engagements beyond the classroom through a wide spectrum of opportunities.

The School's guiding statements underpin the facts that cherishing one's own culture and respecting that of others, as well as values-based learning, are pivotal to holistic education. The educational programmes at the School focus on inculcating in the learner five key attributes: creativity and innovation, collaboration, leadership, global citizenship and life-long learning.

All the elements in our curriculum model converge to bring out the best in every child and enable them to be on the path of continuous development and progress.
